Athlete Name (Printed): _____

Athlete Signature: _____ Date: _____

Parent/Guardian Signature: _____ Date: _____

Team Practice Participation and Conduct Rules for State Competition Eligibility

1. Minimum Practice Requirement

- All team members must attend a minimum of 9 scheduled practices by April 28 to be eligible to compete in the state competition.

2. Tracking Attendance

- Attendance will be recorded at each practice, and coaches will monitor each athlete's progress toward meeting the minimum attendance requirement.

3. Absences and Excused Exceptions

- Absences may be excused for valid reasons, such as illness, family emergencies, or academic obligations, provided the coach is notified in advance. **However, excused absences do not count toward the 9-practice minimum.**

4. Expected Conduct

- All team members are expected to use appropriate language at all times. Roughhousing, inappropriate language, and any behavior that could harm others or disrupt practice are strictly prohibited.
- Team members must demonstrate respect toward all adults, teammates, and coaches. Treating others with respect is essential for maintaining a positive, supportive team environment.

5. Fundraising Participation Requirement

- Each team member is required to participate in designated fundraising efforts to help support team expenses. Fundraising is an essential part of ensuring all athletes have access to resources for a successful season.
- Failure to participate in required fundraising activities may impact the athlete's eligibility for competition and team events.

6. Consequences

- Athletes who do not meet the minimum of 9 practice attendances by April 28 or fail to follow conduct rules will be dismissed from the team.

7. Commitment to the Team

- Participation in practices enhances individual performance and strengthens team dynamics and strategy. Athletes are encouraged to attend all practices and follow conduct expectations to support their teammates and personal growth.
